Financial services we provide to retail clients

You may receive general financial product advice from us in relation to managed investment schemes and/or investment strategies managed by a First Sentier Investors entity or an investment portfolio that is managed by CFSMIL or CFSAMA.

You may access managed investment schemes and investment strategies managed by us via third party product issuers, administration services or managed account product providers. Before investing in such financial products, you will receive a product disclosure statement or an investor directed portfolio service guide (**Disclosure Document**) issued by the responsible entity, managed account or platform provider (as applicable) (**Product Issuer**).

Such Disclosure Documents outline the administration procedures and processes on how you can transact in relation to the financial product as well as information to help you make an informed decision about the product. You should direct any transactional queries to the Product Issuer. Their contact details can be found on the relevant Disclosure Document.

Any written instructions in relation to any general financial product advice must be sent to us in writing signed by you. We will act on your instructions in accordance with our legal obligations.

How are we remunerated for the services we provide?

Remuneration for the financial products and services we provide

When you invest in one or more of our strategies offered by a Product Issuer, we are remunerated directly through the managed account fee or management fee. The managed account fee or management fee are payable to the Product Issuer who will pay an investment management fee to us.

Remuneration and other benefits received by our employees

Our employees do not receive any commissions, payments or other benefits directly related to the financial products and services we provide you.

Our employees are remunerated by salary and may also be eligible for bonus payments depending on various factors such as the individual performance of that employee, overall team or business unit performance. It is not possible to determine the absolute value of the variable reward and whether an employee will receive such payments until the end of the performance cycle.
